About Me

Automation and software professional with 6+ years of experience building and supporting business process automations, RPA solutions and web systems. Skilled in developing bots and workflow automations with integrations across databases, Excel, email, browsers, and APIs. Hands on experience with Automation Anywhere 360, Power Automate, Python, SQL, JavaScript, HTML, and CSS. Known for adaptability, fast learning, problem solving, and cross functional collaboration in dynamic environments.

Technical Skills

Automation Tools: Automation Anywhere 360, Power Automate, UI Path, Zapier.

AI Tools: Cursor, Claude and ChatGPT.

Programming: Python, SQL, HTML, CSS, JavaScript and JSON.

Integrations: API, Database, Excel, Email, Browser Automation, PBI, CRM, SaaS and LLM.

Hard Skills: QA Testing, User Validation, Team Coordination, Client Management, Quality Control, Workflow Automation, Management on Production Support.

Work Experience

Spreetail July 2025 - July2026

Business Automation Expert

Created bots with database, excel, email, browser and API integrations in Power Automate. Created AI Integrations with Cursor and Claude to keep myself accountable with my support and enhancement activities for bots and processes in production.

- Leadership on Production Support
- Creation of a Ticketing System

Success Factors:

- Bot development with AI Integration on Power Automate
- Architecture for Framework on Power Automate
- RPA analysis and documentation for bot development
- Client Management
- Dashboard and Metrics on PBI

Remote Freelance - US

Automation Anywhere Nov 2024 - June 2025

Automation Expert

Created bots with database, excel, email, browser and API integrations in Automation Anywhere 360, worked reusable structures to enhance the bot creation and decrease the development time to send bots to production. Worked with framework integrations.

- Framework Integration

Success Factors:

- Bot development with reusable capabilities
- API and JSON management to send information for reusable bots
- Client Management

Remote Freelance - US

NTT DATA Dec 2022 - Sept 2024

RPA Analyst

Developed bots with integrations across databases, Excel, email, browsers, and APIs using Automation Anywhere 360, Bizagi and UI Path. Created reusable bot structures to support multiple business processes efficiently and performed maintenance activities for bots in production.

- Success Factors:**
- Framework Integration
 - Bot development with reusable capabilities
 - Dashboards for metrics and meetings with stakeholders on PBI
 - Client Management

Remote - Colombia

Deloitte June 2022 - Nov 2022

Senior Developer

Worked as a senior developer of Unqork, most of this work was based coding on HTML, CSS and Javascript. On my additional roles i was working with site revisions, mock-up re-designs, Team management, client management and quality control of the team development.

- Success Factors:**
- Leadership on Development
 - Team management
 - Client Management
 - Dashboard and metrics integrationson PBI
 - Development on HTML and CSS
 - Design and QA on Figma

On site - Argentina

Teleperformance Jan 2019 - Feb 2022

Jr RPA Developer

Developed bot using Automation Anywhere v11 and 360, UI Path, integrating both platforms with multiple CRMS, SQL, API, Error handling and SMTP for email integrations and notifications.

- Success Factors:**
- Bot development
 - Documentation
 - Integration with multiple platforms for automation
 - Dashboard integrations with PBI

Remote - Colombia
